SUMMARY

Full Stack Developer with a focus on Backend and systems architecture, with experience in web application development, API design, process automation, and infrastructure deployment. Able to build complete solutions from scratch: from system and database design to the frontend and deployment on self-managed servers. Hands-on experience in real-world projects, including web platforms, educational systems, and hosting services. Strong interest in optimization, scalability, DevOps, and security, with a product- and business-oriented mindset.

EXPERIENCE

Web Developer **2025 - 2026**
Kiwanis Nubes Verdes *Ipiales, Nariño*
• Designed and implemented a custom CMS built from scratch in PHP for content management.
